

Agenda for ASTB Workshop
NAMI Pensacola, Bldg 3933/1954
11 JUL 02

0900 - 0910 Welcome aboard and introductions: CAPT Willenberg, CO NOMI (Acting)

0910- 1000 Overview of the ASTB:

- Test history, content, purpose, score components
- Administration rates, trends in performance, demographic trends and differences
- Predictive relationships with training criteria and attrition, USMC FFPBs

1010 - 1100 ASTB standards and their consequences:

- Current standards, ASTB pass rates and attrition rates by service and program
- How changes to ASTB standards will affect both

1110 - 1200 Transition to web-based administration of current ASTB (APEX, i.e., How the test is administered):

- Plan, timeline, budget, and test security

Action item:

- Determine what kinds of demographic info we want recorded with administrations of on-line ASTB.

1200 - 1300 Break for lunch

1300 - 1340 Revision and revalidation of the ASTB (i.e., Revision of the test battery content):

- Timeline, budget, plan of work, future test components, and deliverables
- Rekeying of the BI for use prior to full-scale ASTB revision
- Computer-adaptive testing as a security measure

1340 - 1400 Establish future meeting agendas

- Identify action items
- Establish action item responsibilities
- Coordinate with CFT
